AUTHORIZATION & ASSIGNMENT:

I authorize the release of any and all records to Core Health Chiropractic, LLC or Spine & Rehab Affiliates, PLLC as requested. I authorize payment of any benefits to be paid directly to this facility. I authorize the doctor to release all information necessary to secure the payment of benefits. I understand that I am responsible for all costs of services rendered, regardless of insurance coverage. I understand if I have an unpaid balance to Core Health Chiropractic and do not make satisfactory payment arrangements, my account may be placed with an external collection agency. I will be responsible for reimbursement of any fees from the collection agency, including all costs and expenses incurred collecting my account, and possibly including reasonable attorney's fees if so incurred during collection efforts. I also understand regardless of scheduled future care, any fees for all services will be immediately due and payable. I understand it is my responsibility to consult with my primary care physician to rule out any underlying medical condition not related to my musculoskeletal condition, and/or symptoms presented.

DISCLOSURE OF PHYSICIAN OWNERSHIP INTEREST NOTICE TO PATIENTS:

Dear Patient,

Please carefully review this notice.

In order to allow you to make a fully-informed decision about your healthcare, the physicians of Core Health Chiropractic (the "Practice") would like to inform you that at some point during the course of your treatment, the providers may refer you to laboratories, diagnostic imaging centers, surgical centers or hospitals to perform diagnostic studies or surgical procedures. The practice wishes to advise you that some or all of the doctors of Core Health Chiropractic and/or Spine & Rehab Affiliates have a direct ownership interest in:

Spring Imaging Center 26218 I-45 Spring, TX 77386	Spring Hospital 20635 Kuykendahl Rd. Spring, TX 77379	Heights Hospital 1917 Ashland St. Houston, TX 77008	Galleria MRI 3391 Westpark Dr. Houston, TX 77005	Upright MRI 2655 Cordes Dr Sugar Land, TX 77479
--	--	--	---	--

All of the practice's physicians will make referrals to laboratories, diagnostic imaging centers, surgical centers or hospitals, based upon the best interest of a patient's health and any other factors that a patient would like his or her physicians to consider, regardless of any ownership, interest or compensation arrangement that a physician may have with a particular laboratory or other facility.

You, as a patient, have the right to choose the provider of your healthcare services and the diagnostic facilities where you receive services or treatment.

If you have any questions concerning this notice, please feel free to ask your physician or any member of our staff. We welcome you as a patient and value our relationship with you.

By signing below, you acknowledge that you have read and fully understand this notice.

TO: PATIENTS OF CORE HEALTH CHIROPRACTIC AND SPINE & REHAB AFFILIATES

Core Health Chiropractic and Spine & Rehab Affiliates specialize in the treatment of the spine and associated pain. We perform various treatments consisting of passive modalities, therapeutic interventions and spinal manipulation. The goal of our services is to reduce and/or eliminate your pain, however, with any chiropractic and/or physical medicine services there are risks associated with the services we provide.

As your healthcare provider, we feel that it is crucial that you understand these risks. Be informing you of these risks, we are striving to move actively involve you in our care, as well as further assist you in making well informed decisions regarding your treatment options.

PASSIVE MODALITIES

Passive modalities consist of the following treatments: hot packs, cold packs, ultrasound, electrical stimulation, massage, traction and cold laser. The primary risks associated with passive modalities include skin irritation or electrical burns due to exposure to heat, cold or agents used in application or modalities (i.e. lotions and pads). If you have experienced skin sensitivity to heat, cold temperatures and/or lotions or similar products in the past, or are aware of any skin allergies, please inform our staff prior to treatment so proper precautions can be made prior to initiating treatment.

THERAPEUTIC INTERVENTIONS

Therapeutic interventions consist of the following types of treatments: stretching, flexibility exercises, strengthening exercises, joint mobilizations and myofascial release. Therapeutic interventions are generally quite safe, though there are risks associated with each of these procedures. The primary risk is potential aggravation of your current condition and/or underlying condition. As with any physical activity and/or exercise, there is also the risk of injury. Though this risk is minimal, as you are under the direct supervision of experienced clinical staff, it may still exist. Some responses to therapeutic interventions are muscle soreness, muscle fatigue, increased discomfort, overall tiredness and/or joint stiffness and/or pain. It is important that you inform your treating staff member of any of these responses following your treatment and more importantly, it is crucial that you continue to attend your appointments as scheduled so your condition can be documented and your symptoms effectively managed.

SPINAL MANIPULATION

Spinal Manipulation consists of adjustments that seek to restore normal function to the spine and other joints. Typically, this involved applying a specific, highly controlled treatment directly to a joint or muscle. This treatment often reduces or eliminates both local and referred pain, allows muscle spasms to relax and may even release the Irritation from the nervous system, which may result in other health benefits. As with any healthcare service, there are potential reactions and risks, however as with any healthcare intervention, it is hoped that the expected benefits of spinal manipulation exceed the expected risks. These are unavoidable risks of spinal manipulation which, though rare, can occur.

DISK HERNIATION

The occurrence of disk herniation during spinal manipulation is highly unlikely. In fact, averaged disks withstand an average of 23 degrees or rotation and degenerated disks an average of 14 degrees of rotation before failure occurs. Furthermore, given the fact that during manipulation posterior facet joints limit rotation to a maximum of 23 degrees, this joint would have to fracture to allow any further rotation to occur.

CAUDA EQUINA SYNDROME

It is estimated that the rate of occurrence of the Cauda Equina Syndrome as a complication of lumbar spinal manipulation is about one case per 100 million manipulations. It is probably higher in patients with a herniated nucleus pulposus and lower in patients without this anatomic abnormality.

VERTEBROBASILAR ARTERY COMPROMISE

Serious complications of cervical spine manipulation are also rare (none have been reported in any of the clinical trials) but appear to be more common and severe than complication of lumbar manipulation. The most serious complication of the cervical spine manipulation is related to compromise of the vertebrobasilar artery, leading to stroke or death. The risk is higher for manipulation involving rotation plus extension of the vertical spine than for other types of manipulation and those persons who have suffered manipulation related vertebrobasilar artery compromise due to atherosclerotic disease. The best estimate of the incidence of vertebrobasilar artery compromise related to cervical spine manipulation is that it occurs one in a million manipulations (Hurwitz, 1996; McGregor, 1955).

PATIENT UNDERSTANDING AND ACCEPTANCE OF RISKS ASSOCIATED WITH TREATMENT

As your doctor, it is our responsibility to inform you of the potential risks and benefits of your treatment, but we also want to assure you that we strive to minimize these risks by providing thorough clinical examination and by performing diagnostics as clinically indicated. Furthermore, we continually review medical literature pertaining to current trends within our profession as well as throughout the entire medical community to ensure the safest and most effective care.

Understanding Services Not Considered by Your Insurance Carrier

There are some services that are not covered by your insurance carrier. Below are the services that are not considered by your insurance carrier.

VAX-D (Spinal Decompression) | Cost: \$60.00 / session _____ (Initial)

VAX-0 is the brand name of the mechanical traction machine that performs mechanical spinal decompression. VAX-D stands for Vertebral Axial Decompression and is a service prescribed to treat specific issues for the Cervical Spine or the Lumbar Spine. You doctor will advise you if you are a candidate for this service.

If you are prescribed VAX-0 for either the cervical or lumbar spine, the number of visits you are prescribed will vary between 20- 25 visits. The number of visits will vary based on how your body responds to the VAX-0 service. Your visits will include standard post modality care. These standard post modalities are not billed to your insurance carrier. We will not be billing VAX-D services to your insurance carrier. You have 2 options of which you can opt to pay for VAX-D sessions:

Option 1: Pay for sessions per date of service without discount

Option 2: Pay for sessions in advance utilizing the "Prompt Pay" 10% discount.

If you are having VAX-0 therapy **In combination** with any of the other not-considered services on this list, the cost will be added to your patient responsibility. In cases where a patient has taken advantage of the "Prompt Pay" discount, the patient will be asked for payment of the other services that they have received listed on this advisement.

Functional Dry Needling (FDN) | Cost: \$50.00 / session _____ (Initial)

Functional Dry Needling is a **short-term prescribed service** that is performed by a Licensed Physical Therapist. FON requires a short PT Evaluation with the Licensed Physical Therapist who will be performing the service. Your doctor/therapist will be setting the frequency and duration of the short-term prescribed service. In most cases, 3 - 6 sessions are prescribed.

If you are prescribed FON, the FDN service will not be billed to your insurance carrier but all standard modalities and physical therapies will be billed. The cost for the FON will be collected from you at the time of service. If the payment is not collected on the same date of service you have the FON performed, it will be collected from you at the Check In/Check Out and/or be billed to you.

Therapeutic Cupping | Cost: \$25.00 / session _____ (Initial)

Therapeutic Cupping is a **short-term prescribed service** that is performed either by a modalities technician or a Licensed Physical Therapist. Your doctor/ therapist will be setting the frequency and duration of the short-term prescribed service. In most cases, 3 sessions are prescribed.

If you are prescribed Therapeutic Cupping, the service will not be billed to your insurance carrier, but all standard modalities and physical therapies will be billed. The cost for Therapeutic Cupping will be collected from you at the time of service. If the payment is not collected on the same date of service you have the service performed, it will be collected from you at the Check In/Check Out and/or be billed to you.

Active Release Techniques (ART) | Cost: \$25.00 / session _____ (Initial)

ART is a **prescribed service** that is performed by your treating doctor. If you are prescribed ART in conjunction with your treatment plan, the service will not be billed to your insurance carrier, but all other therapies will be billed. The cost for ART will be collected for you at the time of service. If the payment is not collected on the same date of service you have the service performed, it will be collected from you at the Check In/Check Out and/or be billed to you.

Kinesio Taping (Taping) | Cost: \$15.00 / session _____ (Initial)

Kinesio Taping (Taping) is a **prescribed service** that is performed either by a modalities technician or a Licensed Physical Therapist. Taping is usually prescribed once or twice during a course of treatment.

If you are prescribed Taping, the service will not be billed to your insurance carrier, but all other therapies will be billed. The cost for Therapeutic Cupping will be collected from you at the time of service. If the payment is not collected on the same date of service you have the service performed, it will be collected from you at the Check In/Check Out and/or be billed to you.

STATE-REQUIRED ETHNICITY AND RACE QUESTIONS

BACKGROUND INFORMATION

Texas Law requires the Texas Health Care Information Council to collect information on the race/ ethnic backgrounds of medical clinic patients. Medical practices are required to ask patients to identify their own race and ethnic backgrounds.

The data obtained through this process will be used to assist researchers in determining whether or not all citizens of Texas are receiving adequate health care.

If a patient fails or refuses to identify their own race and ethnic backgrounds, facility staff will use its best judgment in making the identification.

QUESTIONS

Mark the box that most accurately identifies the patient's ethnic background.

The Patient Is:

- Hispanic/Latino
- Not Hispanic/Latino
- Patient refuses to answer the question

The Patient's Race Is:

- American Indian/Eskimo/Aleut
- Asian or Pacific Islander
- Black
- White
- Other (includes all other responses not listed above. Patients who consider themselves as multiracial or mixed should choose this category.
- Patient refuses to answer the question
